Usage Instructions

Open the lid and determine the mixing ratio for the specific application. Normal dirt accumulation up to 1:30, high pressure cleaner up to 1:200, engine wash 1:5, plastic 1:20. For rough surfaces and heavy soiling, rework with a brush or sponge. Then rinse with clear water. Always check material compatibility. After use, close the container with the lid. Check on beforehand if compatible with the material. Read the safety and technical data sheet! (Download the PETEC data sheets from www.petec.de)
