## Areas of application

PETEC chain oil for lubricating drive chains. Thanks to its outstanding ability to penetrate and the infiltration into fissures, the special oil reaches the smallest pores in the chain and chain links. Optimal transmission of power thanks to low viscosity and frictionless lubrication. Also suitable for lubricating joints, screw connections, quick-release fasteners, clamps, saddle rail and all moving parts on a bicycle. Ideal for bicycles and e-bikes based on two-wheel mechanics, trade and hobbies.
