

INSULATING TAPE

Features

- high-strength adhesion
- VDE tested
- excellent expansion and relaxation properties
- weatherproof and ageing resistant
- for indoor and outdoor applications

Areas of application

For insulating electrical leads, cables, plugs and connectors.

TechnicalData

| | |
|------------------------|--------------|
| Colours | black |
| Shelf life | 36 Months |
| Dielectric strength | 6 |
| Temperature Resistance | -15 - +90 |
| Tensile strength | 58,8 N /25 m |

Usage Instructions

Thoroughly clean and degrease the surface with PETEC Multi Cleaner (item no. 82100 or 82200). Wrap the insulating tape. Always conduct your own tests to ensure that the product is suitable for each application. (Download the PETEC data sheets at www.petec.de)

Package Sizes

Item no.: 87000

10 m x 15 mm x 0.15 mm roll

Our technical application advice, whether verbal, in writing, or based on tests, is provided to the best of our current knowledge. However, it does not release you from the obligation to independently verify the suitability of the products we supply for the intended processes and purposes. The application, use, and processing of the products are beyond our control and therefore fall solely within your area of responsibility.
