

ELECTRONICS CONTACT SPRAY

Features

- cleans, removes residues, lubricates, protects and maintains electronic components
- cleans electronic components
- displaces moisture
- remarkable penetration capability
- removes oxidation
- compatible with many different materials
- non-conductive
- resistant to water and salt water
- 360°-valve, can be used upside down

Areas of application

For cleaning, servicing and maintenance as well as long-term corrosion protection of/on electronic components and contacts (e.g. cable, plug and terminal connections, fuse boxes, fuses, relays, distributor caps, spark plugs, generators, starters, battery terminals and many more). PETEC contact spray electronic prevents current leaks and power loss.

TechnicalData

Shelf life	36 Months
Temperature Resistance	-30°C - +90°C

Usage Instructions

Shake can well before use. Make sure you disconnect the battery! Spray PETEC electronics contact spray onto electronic components/contacts. If the contacts are heavily corroded, leave the electronics contact spray act for longer and then wipe off with a clean cloth. If necessary, repeat the process multiple times. Check on beforehand if compatible with the material. Always conduct your own tests to ensure that the product is suitable for each application. Read the safety and technical data sheet! (Download the PETEC data sheets from www.petec.de)

Package Sizes

Item no.: 71150

500 ml

Our technical application advice, whether verbal, in writing, or based on tests, is provided to the best of our current knowledge. However, it does not release you from the obligation to independently verify the suitability of the products we supply for the intended processes and purposes. The application, use, and processing of the products are beyond our control and therefore fall solely within your area of responsibility.
