PETEC

TechDataSheet

MULTI CLEANER, LIQUID

Features

For cleaning and degreasing bonding and sealing surfaces.

- multi-purpose
- completely residue-free and non-corrosive
- removes silicone residues
- also as pre-treatment when varnishing

Areas of application

Ideally for pre-treating bondings, varnishings and bases. Also suitable for cleaning bonding surfaces during window adhesion.

TechnicalData

Base	aliphatic hydrocarbons
Colours	clear
Flash time	2
Shelf life	36 Months

Usage Instructions

Shake can well before use. Spray on the surface from a distance of approx. 20 cm and let it act (contact time depends on the application and degree of soiling). Then wipe off with a clean cloth. Repeat the procedure several times in case of heavy soiling. Thoroughly clean and degrease the surfaces with PETEC Multi Cleaner (item no. 82200 or 82100) before the sealant or adhesive is reapplied. Before use, check the material for colour fastness and material compatibility in a hidden spot. Once the flash-off time has passed, apply the adhesive or sealant. Read the safety and technical data sheet. (Download the PETEC data sheets at www.petec.de)
